```python
#Time: 0.01 sec
for _ in range(int(input())):
    s=input()
    print(int(s[0])+int(s[-1]))
```

```python
for _ in range(int(input())):
    fact=[]
    res=1
    for num in range(1,int(input())+1):
        res *= num
    print(res)
```

```python
lst = []
for _ in range(int(input())):
    lst.append(int(input()))
lst.sort()
for i in lst:
    print(i)
```
